

Solidar DRS

Invisible Digital Bifocal Ideal for Close-Up Tasks

Exceptional Distance Vision, Superb Near Vision, Virtually Invisible! Solidar's Digital Bifocal is the perfect solution for anyone who needs to focus on close-up tasks while maintaining a wide field of distant vision. It's ideal for the fisherman tying a lure, bicyclists, photographers, a variety of office workers, and anyone that reads for long periods of time. It's available as prescription clear lenses and sunglasses in a wide array of treatments and coatings, including: Polarized, Photochromics, 420-IR, and our exclusive Mirror Collection.

The Solidar DRS provides high definition, distortion-free performance for both near and far vision and is virtually invisible because it's on the backside of the lens.

- Outstanding field of view for distance vision
- Available in all Lens Materials
- Up to Add 5.00
- Near Vision Segment: 28 mm and 35 mm

You Won't Believe Your Eyes!™
